END OF SECTION

City of Lafayette (City)
Tobacco Free Workplace Policy
("Policy")

Purpose

The purpose of this Policy is to establish a tobacco free policy for the City of Lafayette. The City is committed to providing a safe and healthy workplace and to promoting the health and well-being of its employees. Because the City recognizes the hazards caused by exposure to environmental tobacco smoke, as well as the life-threatening diseases linked to the use of all forms of tobacco, it shall be the policy of the City, effective August 22, 2014, to provide a tobacco-free environment for all employees and visitors. This Policy may be amended, changed or terminated by the City, in its sole discretion at any time, with or without notice.

General

It is the policy of the City to prohibit smoking and the use of all forms of tobacco on all City premises in order to provide and maintain a safe and healthy work environment for all employees. This Policy covers the smoking of any tobacco product and the use of oral tobacco products or "spit" tobacco. For purposes of this Policy "smoking" means the act of lighting, smoking or carrying a lighted or smoldering cigar, cigarette, pipe of any kind or any other device, including but not limited to e-cigarettes, used to burn tobacco or other like substances.

Scope

1. This Policy applies to the following:

- a. Any areas of buildings occupied by a City employee.
- b. A City sponsored off-site conference and meeting.
- c. A vehicle owned or leased by the City.
- d. A visitor, customer and vendor of the City.
- e. A contractor or consultant and their employees working on City property.
- f. A full-time or part-time employee and an intern, temporary, or seasonal employee or volunteer.

2. No use of tobacco products or smoking will be allowed within the enclosed facilities of the City at any time. For purposes of this Policy, "facility or facilities" means any building, structure, improved or unimproved land, or any part of any building, structure, or land which is owned, used or occupied by the City.

3. The decision to provide an outside designated smoking area will be at the discretion of a department head in consultation with the Mayor. If a designated smoking area is permitted, the designated smoking area must comply with the following:

- a. The area must be located at least twenty (20) feet from a facility's entryways, windows, vents and doorways, and not in any location that allows smoke to circulate back into a building.
- b. All materials used for smoking in this area, including, but not limited to, cigarette butts and matches, will be extinguished and disposed of in an appropriate container. A manager or supervisor will ensure periodic cleanup of the designated smoking area. If the area is not properly maintained (for example, if cigarette butts are found on the ground), the area can be eliminated at the discretion of management.

4. While on City work time, an employee who wishes to use a tobacco product may not do so anywhere in public view where he/she can be identified as an employee of the City.
5. No use of tobacco products or smoking will be allowed in or on any City vehicle at any time. No use of tobacco products or smoking will be allowed in personal vehicles when transporting people on City authorized business.
6. An employee may not smoke or use tobacco products when he/she is performing the duties of his/her City position. This prohibition includes an employee who performs his/her duties outside and on or off City property.

For example, an employee may not smoke or use tobacco while performing duties which may include, but are not limited to, mowing, repairing streets or sidewalks, inspections, landscaping, or lifeguarding.

7. A department head or the department head's designee, will discuss the issue of taking breaks with his/her staff, both tobacco and non-tobacco users. Together, they will develop effective solutions that do not interfere with the productivity of the staff.

Enforcement

1. The City believes that the spirit of thoughtfulness and cooperation which is characteristic at the City is adequate to resolve a dispute which might arise under this Policy. Where a dispute cannot be resolved, the rights of the non-tobacco user shall be given precedence.
2. To resolve a complaint about tobacco use, see below:
 - a. A complaint about the application of this Policy to the City workplace should be brought to the attention of a department head or the Human Resources department.
 - b. The complaint should be submitted in writing and identify specific objections. The City will investigate the complaint, when appropriate, and resolve it in accordance with this Policy or other applicable City rules and policies.
 - c. No employee shall be subject to any form of retaliation for raising a complaint under or asking a question about this Policy.
3. An employee who violates this Policy will subject to disciplinary action up to and including termination of employment.

RE: Pearl River Sewer Relocation Project

Dear Mr. Talley,

We have reviewed the bids for the Pearl River Sewer Relocation Project.

Bid Opening

Bids were received on April 14, 2020, and then opened and read aloud at 9:00 am. The project advertised on March 6 and March 13, 2020 in the Journal & Courier.

Four Addenda were issued:

1. Addendum 1 postponed the original bid date of March 31 to April 14.
2. Addendum 2 addressed various design and quantity updates to the plans and specifications.
3. Addendum 3 addressed the bid submittal process with respect to the COVID-19 pandemic.
4. Addendum 4 addressed unanticipated conditions with trenchless pipe installations.

Two bids were received. Atlas Excavating, Inc and Bowen Engineering Corporation submitted bids for the project.

Bid Results

The bidders submitted additional information to supplement their bids. The documentation is complete, with the exception that Atlas Excavating did not provide financial documents with their bid submittal.
