**Public Comments**

**Adjournment**

**Historic Preservation Commission Meeting Minutes**  
**December 16, 2019 7:00 p.m.**  
**Lafayette City Hall – Board of Works Room**

**Commission Members in Attendance:** Julie Ginn, Kevin Klinker, Sean Lutes, Shawna McCully, Amy Paget, Glen Vick and Kurt Wahl

**Absent:** John Burns, Patti Morgan

**Staff in Attendance:** John Collier, Dann Keiser, Michelle Conwell

**Guests:** Taletha Coles, 517 N. 10<sup>th</sup> Street; Lucy Coles, 517 N. 10<sup>th</sup> Street; Nekha Snyder, 517 N. 10<sup>th</sup> Street; Nic Brown, 17 Wildwood Drive; Dianne Mork, 1509 & 1521 Cason Street

Noting a quorum, Vice President Sean Lutes called the meeting of the Lafayette Historic Preservation Commission to order at 7:00 pm.

**Approval of the August Minutes**

Amy Paget moved to recommend approval of the of the November 18, 2019 meeting minutes. Glen Vick seconded the motion. The motion passed unanimously.

**New Business**

**Election of Historic Preservation Commission Officers for 2020**

Kevin Klinker moved to open the nominations of Officers for the 2020 Historic Preservation Commission Shawna McCully seconded. The motion passed unanimously.

The slate of Officers presented is as follows:

John Burns-President

Sean Lutes-Vice President

Glen Vick-Secretary

Kevin Klinker moved to close the nominations of Officers for the 2020 Historic Preservation. Julie Ginn seconded. The motion passed unanimously.

Kevin Klinker moved to accept the slate of Officers as listed above. Julie Ginn seconded. The motion passed unanimously.

**Approval of the 2020 Calendar of Historic Preservation Commission Meetings-**Kevin Klinker moved to approve the 2020 Calendar of Historic Preservation Commission meetings. Shawna McCully seconded. The motion passed unanimously.

**Public Relations and Education Committee report**

No report was made by the Public Relations and Education Committee.

**District Committee report**

District Committee Chair, Shawna McCully stated that the Commission received, reviewed and recommend approval of petitions for the establishment of two new local historic districts in the City. Petitions include the following:

### **Petition to Establish the Local Greenbush Historic District**

This petition includes only the Greenbush Cemetery at this time. Taletha Coles, Fairfield Township Trustee and petitioner, spoke about her excitement in being involved with the Historic Preservation Commission. She gave details about the changes she has in mind for the cemetery. John Collier and members of the Commission briefly went over the requirements for submitting a COA for her future reference. Mr. Collier also explained the approval process for the establishment of a new local district. Once this Commission recommends approval of the new district, then an Ordinance will be written and forwarded to the City Council for its approval following two readings. The first reading of the Ordinance will be heard at the January City Council meeting with the final reading at the February City Council meeting. Once the City Council approves the new district, it will be recorded with the County Recorder's office. Kevin Klinker moved to approve the Petition to Establish the Local Greenbush Historic District. Shawna McCully seconded. The motion passed unanimously.

### **Petition to Establish the Local Perrin / Cason Street Historic District**

This petition is to include 1509 and 1521 Cason Street. Dianne Mork, owner of the properties and petitioner, spoke about the history of the homes originally built by James Perrin for two sons, William (1509 Cason St.) and John (1521 Cason St.). Mr. Collier reiterated the process for final approval of the local district through an Ordinance to be passed by City Council and Mrs. Mork stated that she understood. Julie Ginn moved to approve the Petition to Establish the Local Perrin / Cason Street Historic District. Kevin Klinker seconded. The motion passed unanimously.

## **COA Committee report**

### **COA applications:**

#### **COA-6 S. 9th Street**

The first COA is for exterior lights at 6 S. 9<sup>th</sup> Street. This is the former Village Pantry site at the South West corner of 9<sup>th</sup> and South Streets that is under construction right now to install a pump house, underground sewer infrastructure and small park with sidewalk, seat wall and landscaping. The Commission approved the park and pump house project in May 2019, but this is for exterior lights which were not shown on the original COA. The proposal is for 2 building lights over the doors of the pump house (on the south and west faces of the pump house) and at most four ornamental lights along the back of the curved seat wall and new sidewalk. The new lights are similar to and compatible with the existing street lights that go up the hill on South Street between 9<sup>th</sup> Street and Main Street; black ornamental poles with acorn style fixtures on top. These lights will be pedestrian scale so likely not as tall as the lights along South Street. We're still working with the consultants on the exact number of new poles/lights to be installed. Kevin Klinker moved to approve the 6 S. 9th Street COA. Shawna McCully seconded. The motion passed unanimously.

#### **COA-North West corner of 10th and Main Streets**

The second COA is for artistic interactive seating at the proposed bump out at the North West corner of 10<sup>th</sup> and Main Street as part of the Main Street Streetscape Phase 3 project. You may recall that the Phase 3 project was approved by the Commission a couple of months ago, but this is a new site amenity that is being added to the project for this specific location. This new site amenity is a unique, artistic and interactive approach to seating for this one location. It involves the installation of a cluster of 5 metal cylinders at various diameters and heights (widest is 30" diam. tallest is 36" tall) that have different colored acrylic tops through

which LED light is emitted that creates a seat top that gives off a subtle, glowing colored light. The cylinders have internal light and sound mechanisms. When the acrylic top is touched a subtle sound is made and the acrylic top is illuminated. Mr. Collier confirmed with the design consultants for the Phase 3 streetscape project that the sounds are programmed with an mp3 file so they can be programmed with just about any pleasant, subtle sound and the sounds can be changed. The volume level can be controlled and set to a timer so it won't make a sound after a certain hour. The LED lights can also be set on a timer, most likely sound and lights would be coordinated to go on and off together. The exterior of the metal cylinder that houses the sound and light components can be powder coated to just about any color, the City staff is recommending black. Each cylinder will be mounted to its own concrete base within the brick paver area. Overall, the lighting effect will be low intensity and subtle. Mr. Collier shared an image of an installation in another city to show the light emitted from the top of the cylinder. The closest cylinder is approximately 8-9 feet from the building, so they won't be shining directly onto the building. The proposed site of the cylinders is on the proposed bump out adjacent to 926-928 Main Street, which is the same building where the replacement limestone band adjacent to the building was previously approved by the Historic Preservation Commission. There was considerable discussion among the members of the Commission and concerns were raised by a couple of Commissioners who would have preferred a more creative and thoughtful solution. Kurt Wahl moved to approve the COA for the installation of interactive seating for the North West corner of 10th and Main Streets. Julie Ginn seconded. The motion passed with a vote of 5-2 with dissensions from Kevin Klinker and Amy Paget.

**Staff Report** - None

**Public Comment**

Vice President Lutes asked for additional comments from the public. There were no comments from the public.

**Adjournment**

There being no further business to bring before the Commission, Julie Ginn moved to adjourn the meeting. Kevin Klinker seconded the motion. The motion passed unanimously and the meeting of the Historic Preservation Commission was adjourned at 7:32 pm.

*Respectfully submitted,  
Michelle Conwell, Recording Secretary*

ESTIMATED COST OF PROJECT: \$ 25,000

The Lafayette Historic Preservation Commission is a nine-member board who meets monthly to review the COA applications that are subject to commission review.

The Lafayette Historic Preservation Commission cannot render judgment nor process an Application without the specific documentation listed below. It is the Applicant/Owner who must provide comprehensive documentation of the proposed project with adequate information so that there is a complete understanding of the project for the commissioners and staff when rendering a decision. Applications will NOT be processed without all required or requested documentation. An incomplete COA application may delay the COA review process.

These items must have been completed before submitting application: (Please check yes or no below)

1. Are all zoning approvals met and in compliance for the proposed work? Yes  No
2. Are there any Variances pending or necessary for the proposed work? Yes  No

**Documentation to be submitted with application: (Minimum requirements for all COA Applications)**

(Please place a check-mark at each listed item below that you include with this application)

- Photos of building exterior (all visible elevations) maximum of 4 photos to a 8 1/2"x11" sheet
- Complete drawings of proposed project
- Floor plans of affected levels
- Exterior elevations of all areas where work will occur (minimum 11"x17" sheet)
- Signed application
- Site plan (If project affects ground floor exterior)
- Sample or brochure plus specifications and color samples of all permanent materials to be used
- Written description of proposed project and 1 set of full-sized plans
- Photos of adjacent or attached structures showing locations of connection
- Electronic versions of complete drawings of the proposed project are acceptable

**NOTE: See categories below for specific projects and additional documentation as applicable.**

**WINDOW PROJECTS (Additional Documentation)**

(Check-mark all that apply)

- Elevation drawings of each window type
- Window section drawing(s): with head, sill, jamb, mullion, and muntins with all dimensions
- Condition statement of existing windows describing the type and extent of deterioration for windows to be removed or replaced. If replacement windows are proposed, submit photos showing condition and extent of deterioration.
- Note indicating whether or not windows are original
- Note on plan and elevations which windows are new and which are original to remain
- Note materials to fill in opening and indicate structure to be removed if applicable

**DOOR(S) PROJECTS (Additional Documentation)**

(Check-mark all that apply)

- Close-up photo(s) of the existing door(s) to be replaced and photos of doors on adjacent buildings
- Condition statement of the existing doors describing the type and extent of deterioration
- Door elevation drawing(s) of each door type
- Door section(s)
- Note on plan and elevations which doors are new and which are original to remain

**SIGNAGE (Additional Documentation)**

**(Check-mark all that apply)**

- Color photo(s) of the entire building with proposed location of the signage indicated.
- Close-up photo of the proposed signage location
- Detailed drawings showing the dimensions of the sign and how it will be attached to the building
- Description of the proposed sign and bracket materials, dimensions, sign lettering, signage lighting, and method of attachment to the building. We recommend you use existing holes where possible. If new anchorage holes are necessary, place anchorage in existing mortar joints and avoid damaging existing bricks and permanent exposed building materials.

**Please note:** Signage area and permits must be approved by the City of Lafayette Engineering Department.

**STOREFRONTS/FACADES, AWNINGS, SHUTTERS, AND OTHER ARCHITECTURAL ELEMENTS**

**(Additional Documentation)**

**(Check-mark all that apply)**

- Clear description, photos and elevation drawings of proposed signage, lighting, awnings, security systems, and accessibility provisions (i.e. lifts, ramps, handrails etc.).
- Color photos/elevations showing storefront/ façade of all floors as they relate to all proposed work.
- Drawings specifying the plan, section, and construction details.

**NEW CONSTRUCTION, ADDITIONS, GARAGES, AND CARRIAGE HOUSES (Additional Documentation)**

**(Check-mark all that apply)**

- Same requirements as listed on page 2 under **Documentation to be submitted with application**

**STOOPS, STEPS, FENCES, HANDRAILS, PORCHES, AND BALCONIES (Additional Documentation)**

**(Check-mark all that apply)**

- Color photos and construction plans detailing the location of the proposed stoops, steps, fences, handrails, porches, and balconies.
- Drawings specifying the proposed work, construction details, and installation method for all improvements under this section.
- Drawings of existing conditions without the proposed work

**ROOFS (Additional Documentation)**

**(Check-mark all that apply)**

- Color photos detailing the location of the roof(s)
- Drawings specifying the plans, construction details, and installation methods.

**STREETSCAPING (Additional Documentation)**

**(Check-mark all that apply)**

- Drawings and specifications of proposed site plan, including trees, plantings, grates, sidewalk amenities, signage, art work, sculptures, fountains, benches, tables, seating, etc.
- Drawings of the existing conditions without the proposed work

**Please note:** If the COA is approved, any changes or amendments to the approved COA will require additional review by city staff or the Historic Preservation Commission. An approved COA is valid for 12 months from the date of approval of the COA. After 12 months COA application must be resubmitted and reapproved by the HPC or Staff to continue the project.

**REQUIRED SIGNATURE:** The undersigned certifies that the statements set forth in this application including all drawings and specifications submitted herewith are true and correct, and agrees that the proposed improvements described in this application will be constructed in all respects in accordance with the approved COA as specified in the application, drawings and specifications submitted herewith. The undersigned further agrees to abide by any amendments approved to be part of this project by the Lafayette Historic Preservation Commission or Staff.

Applicant: (Print clearly or type) G. KURT WANL  
Signature of Applicant: G. Kurt Wahl Date: 1-13-20  
Owner Print clearly or type) ROBERT HOCKEMA  
Signature of Owner (if different): [Signature] Date: 1-13-20

**APPLICATIONS AND DOCUMENTATION:**

Applicant must provide 13 copies of the completed and signed COA Application and all documentation noted to be submitted with COA Application including: Materials to be used, detailed written description of the project with dimensions, drawings to scale, construction methods, finishes, manufacturing brochures and specifications as well as clearly labeled photographs of the building and affected areas. Plus any additional documentation as requested by Staff or the COA Committee. Electronic versions may be submitted if available in addition to the 13 copies noted above. The copies will be supplied to each Commissioner and the City Staff for the Lafayette Historic Preservation meeting.

The Commission follows the Secretary of Interior's Standards for Rehabilitation and Guidelines for Rehabilitation Historic Buildings when reviewing applications. Applications should follow these standards and guidelines when applicable. Additional guidelines, Preservation Briefs, Bulletins and "The Resource Guide", can be accessed on line at [www.Lafayette.in.gov](http://www.Lafayette.in.gov)

Certain work in a Historic District may be approved by the Staff in lieu of being reviewed by the Lafayette Historic Preservation Commission, but the applicant will still be required to submit this application for Staff review with all documentation as noted for the proposed project.  
**Staff is authorized to approve the following:** Signs that comply with the guidelines, Installation of storm windows, Installation of re-skinning of canvas awnings and canopies of a simple design, Installation of historically appropriate hand rails, Temporary removal of historic building components for the purpose of repair, Replacement of roof sheathing when there are no structural changes, Removal of chimneys that are only visible from the rear of a structure, Installation of stained or leaded glass windows, Installation of appropriate historical shutters, Removal of a non-original addition or alteration to a structure, and Extension of an approved COA for up to one additional year if the project scope has not changed. If questionable, please contact Staff to determine whether your project must be reviewed by the Lafayette Historic Preservation Commission.

**APPLICATION SUBMITTAL DEADLINE:**

This COA Application Form and all supporting documentation **MUST** arrive by 12:00 noon on the deadline date established to be considered at the next Historic Preservation Commission Meeting. Any information not provided to staff in advance of the meeting may not be considered by the Commission during their deliberation. Please call if you have any questions and Staff will assist you.

**MEETING ATTENDANCE:**

For COA applications requiring review by the Lafayette Historic Preservation Commission attendance at the Commission Meeting is strongly recommended to present the project and answer questions. The Commission will also hear public comments prior to making a decision on the project. Failure by the Owner, applicant or contractor to attend such meetings may result in denial of the Application due to insufficient presentation.

**INSPECTIONS:**

All projects will be inspected while work is in progress and upon completion of the project to ensure compliance with the approved COA.

Owner acknowledges that while the Lafayette Historic Preservation Commission only considers Certificates of Appropriateness for exterior features, under certain circumstances it may be necessary for the Commission Staff to have access to the interior of the building in order to accurately assess the condition of the exterior feature(s). The lack of access to the interior may prevent the Commission Staff from making a favorable recommendation.

Applicant **MUST** notify the Commission Staff upon completion of the approved COA work for a final inspection of the improvements.

**WORKING WITHOUT A COA / DENIAL OF A COA**

Lafayette Staff inspectors regularly inspect historic properties to ensure compliance with approved Certificates of Appropriateness. When additional work has been commenced without an approved COA, a Staff inspector may issue a stop work order and request that the Owner seek an addendum to the original COA to include any additional work, revisions or changes. Work undertaken without a Certificate of Appropriateness is in violation of Title 12 of the Lafayette City Code, and the Lafayette Historic Preservation Commission may require that unauthorized changes in a historic structure be reversed and or completed in a satisfactory manner. If the work continues, a building official may issue a citation with a fine and the Historic Preservation Commission may institute suit for injunction to restrain the Owner from further violation and to cause the violation to be prevented, abated or removed. Please contact the Staff if there is any question about changing the scope of the work approved.
