914 Columbia Street-Porch and sidewalk modifications

This modified proposal was tabled at the November 2022 meeting. The existing, non-original concrete stoop and stairs on the west side of the building (facing the parking lot) will be removed and the existing porch will be extended to the north to meet the existing wall of the house and will accommodate access to the existing door on the west side of the building. A new rough-cut limestone porch railing that matches the existing porch railing will be extended along the west side of the new porch to the corner of the existing building. The existing door on the west wall will remain and will open onto the new section of porch. Changes to the grade and configuration of the sidewalk from the center porch stair unit to the parking lot as well as changes to the grade of the existing ramp east of the center stair to the porch. Changes are also being made to create an ADA accessible path from the parking lot to the porch. Changes in the grade will necessitate an additional step on the main stair going to the porch. The

existing limestone steps will be adjusted and reinstalled and a new limestone step to match will be installed on the main stair to the porch. Finally, an additional concrete step area will be added on the porch so that the main entry doors will be at grade with the porch. Julie Ginn made a motion to recommend approval of the petition, Alec Williams seconded. The motion passed unanimously.

Staff Report –

John Collier handed out posters of Indiana’s Fraternal Organizations from the Indiana Department of Historic Preservation and Archeology in recognition of Historic Preservation Month.

John also presented the completed EPICS plaque highlighting Colonel William Carroll to be placed next to his gravesite in Greenbush Cemetery.
