FOR IMMEDIATE RELEASE
March 31, 2020

City of Lafayette to suspend construction work on Loeb Stadium

LAFAYETTE, INDIANA – March 31, 2020 – In response to developments regarding COVID-19, the City of Lafayette has announced that Loeb Stadium construction work will come to a close effective Friday, April 3, 2020, until further notice.

The closure comes just days after Governor Holcomb's statewide Stay-at-Home order. While the Loeb Stadium project is of great importance to the City of Lafayette, the health and safety of workers and the community at large remains the City's top priority. In an effort to stop the spread of the Novel Coronavirus, the City believes that suspending work on Loeb Stadium is the best decision at this time.

The City of Lafayette will continue to monitor this rapidly changing situation and provide updates as available. Updates and resources are being posted regularly on the City's social media channels and at www.lafayette.in.gov/coronavirus.
