

E.V. CHARGING STATIONS

*City of Lafayette and Duke energy introduce the Electric Vehicle Charging Stations. A new way to be **environmental friendly**.*

*Duke Energy installed new charging stations as part of the project **PLUG-IN**. These EV charging stations are currently available free.*

There are two EV charging stations located in the first and second floor of the parking garage.

The Charging stations are able for Point-for Sale so credit cards can be used. In the prospective future, City of Lafayette is willing to expand the project with on street E.V. Charging stations.
