WE DON'T TAKE THESE

Alkaline Batteries (non-rechargeable batteries go out with the trash)
Medical Waste (West Lafayette Police Department, 775-5200)
Explosive Materials
Asbestos
Empty Containers (put out for trash with the lids off)
Latex Paint (unless lead is listed on Ingredient list. See how to dry.)
Oxidizers

HOW DO I DRY OUT LATEX PAINT FOR DISPOSAL?

Read the Label. Oil Based/Alkyl/Combustible clean up with Mineral Spirits paint goes to the hazardous products collection – do not dry it out.)

For Latex Acrylic/Clean up with soap and water paint, pour cheap clay cat litter or "oil dri" in the can on a 1:1 ratio and stir. It will dry in a day or two. Leave the lid off and set out with the regular trash. If sanitation workers can't see it is dry they won't pick it up.

What if I have full cans of latex paint?

Line a cardboard box with a trash bag, Pour "oil dri" or cheap clay cat litter in the box, then half the can of paint on top. Fill the half full can with cat litter. Stir both and let dry for a day or two. Set out for the regular trash with the lid off.

TOXIC LEFTOVERS:

Don't pour, dump or trash toxic, flammable, or corrosive products. This can harm people and pollute our land, air, water and wildlife.

Bring unwanted paint thinner, pesticides, acids, weed killer, mercury, furniture polish etc. to

Best Way Disposal.
