Section 2. Annual Information.

During the term of the tax abatement and for a period of two (2) years thereafter, the City or its authorized agent may annually request information from the Applicant concerning the nature of the Project and the approved capital expenditures for the Project and the Applicant shall provide the City with adequate written evidence thereof within 45 days of such request (“Annual Survey”). The City shall utilize this information and the information required to be filed by the Applicant in the CF-1 Compliance with the Statement of Benefits form to verify that the Applicant has complied with the commitments contained in the Commitments at all times after the Commitment Date and during the duration of the tax abatement. The applicant further agrees to provide the City with such additional information requested by the City related to the information provided in the Annual Survey and the CF-1 form within a reasonable time following any such request.

Section 3. Termination.

A. Right to Terminate. The City, by and through the Council, after recommendation by the Commission, reserves the right to terminate the personal property tax abatement deduction if it determines that the Applicant has not made reasonable efforts to substantially comply with all of the Commitments and the Applicant’s failure to substantially comply with the Commitments was not due to factors beyond its control.

B. Factors Beyond Control. As used in this Agreement, factors beyond the control of the Applicant shall only include factors not reasonably foreseeable at the time of the designation application and submission of Statement of Benefits which are not caused by any act or omission of the Applicant and which materially and adversely affect the ability of the Applicant to substantially comply with the Agreement. New technological developments and process improvements may also be included as factors beyond of the control of the applicant.

C. Repayment Upon Termination: Pursuant to Resolution 2004-22 if the new manufacturing equipment is removed from the City of Lafayette before the expiration of the term of the abatement, and the City terminates the personal property tax abatement, the City may require the Applicant to repay all or a pro-rated portion of the personal property tax abatement savings received through the date of such termination.

D. Notice of Termination and Repayment. In the event that the City determines that the tax abatement deductions should be terminated or that all or a pro-rated portion of the tax abatement savings should be repaid, it will give the Applicant notice of such determination, including a written statement calculating the amount due from the Applicant, and will provide the Applicant with an opportunity to meet with the City's designated representatives to show cause why the abatement should not be terminated and/or the tax benefits repaid. Such notice shall state the names of the person with whom the Applicant may meet and will provide that the Applicant shall have ninety (90) days from the date of such notice to arrange such meeting and to provide its evidence concerning why the abatement termination and/or tax benefits repayment should not occur. If, after giving such notice and receiving such evidence, if any, the City determines that the abatement termination and/or tax benefits repayment action is proper, the Applicant shall be provided with written notice and a hearing before the Council before any final action shall be taken terminating the abatement and/or requiring repayment of tax benefits. If the Council adopts a Resolution terminating the tax abatement and/or requiring repayment of tax benefits, the Applicant shall be entitled to appeal that determination to a Tippecanoe County Superior or Circuit Court.

E. Time of Repayment. In the event that the City requires repayment or partial payment of the tax abatement benefits as provided hereunder, it shall provide Applicant with a written statement calculating the amount due (“Statement”), and the Applicant shall make such repayment to the City within ninety (90) days of the date of delivery of the Statement, unless such repayment has been stayed pending an appeal. If the Applicant does not make timely repayment, the City shall be entitled to all reasonable costs and attorneys fees incurred in the enforcement and collection of the tax abatement savings required to be repaid hereunder.

Section 4. Use of Local Suppliers and Contractors for Project and Local Persons to Fill Positions Created by Project.

The Applicant agrees to make a meaningful, good-faith effort to use local suppliers, and local contractors for the Project.

## PRINCIPLES

### FOR CONSIDERATION OF PROPERTY TAX ABATEMENT IN LAFAYETTE, INDIANA

These principles are used in determining the guidelines and considerations for each category of project, and will also be used in determining the length of an abatement within each category.

1. Firms receiving tax abatement are expected to give local construction firms and local suppliers of goods and services the opportunity to do business.
2. Existing industry will be considered for tax abatement on the same basis as firms being recruited to the community.
3. Preference will be given to firms that diversify and fill gaps in our local economy rather than those that compete for business in the local economy with existing firms.
4. Products that are sold outside our local community and bring value to the local economy will be given a high priority.
5. Abatement will be used to recruit and assist firms that create a technology based product or service or use advanced technology in manufacturing.
6. Location in the downtown, the urban enterprise zone, or declining area designated as an economic development area will be given a higher priority.
7. Projects that involve retail or are primarily office operations will be considered only in the locations described in #6 above unless the office operations are technology related.
8. The number of jobs created per dollar of investment will be an important consideration for the warehouse distribution and manufacturing areas.
9. The level of wages and benefits will be an important consideration for all applications.
10. Housing will be evaluated in terms of percentage of units available to lower income families, mix of income levels, distance from other projects serving a similar clientele, availability of services, potential displacement of existing housing, and compatibility of design.
11. Projects will not be considered that will require variances or special exceptions unless primary review indicates that no problems will be encountered.
12. Adverse environmental impacts will negatively affect the consideration of abatement.
13. Any need for additional public infrastructure or other additional public support in the project will be considered in determining the length of the abatement.
14. Major development projects will be individually evaluated.
15. The time period of depreciation of equipment will be considered in the length of abatement for equipment.
16. Economic Revitalization Areas (ERAs) designated by the Common Council for new manufacturing equipment will include a Memorandum of Understanding that will provide for the repayment to the City of all or a portion of the tax savings realized through the designation in event that the ERA is terminated because the new manufacturing equipment is removed from the City.

SECTION 3. The Issuer shall issue its Bonds in one or more series, as described above, in the aggregate principal amount not to exceed \$8,000,000, for the purpose of procuring funds to loan to the Borrower in order to finance the acquisition, construction, renovation, improvement and equipping of the Project which Bonds will be payable as to principal and interest solely from the payments made by the Borrower pursuant to the Financing Documents to evidence and secure said loan and as otherwise provided in the above-described Financing Documents. SECTION 4. The Clerk is authorized and directed to sell such Bonds to the purchasers thereof at a price not less than 97% of the aggregate principal amount thereof (excluding any original issue premium or discount) plus accrued interest, if any, and at a fixed or initial variable rate of interest not to exceed 12% percent per annum. The Bonds will mature no later than 40 years from the date of their issuance, and shall be subject to optional redemption within 11 years of the date of issuance thereof at a price of 100% of the principal amount thereof.

The provisions of this ordinance and the Financing Documents shall constitute a contract binding between the Issuer and the holder or holders of the Bonds and after the issuance of said Bonds, this ordinance shall not be repealed or amended in any respect which would adversely affect the right of such holder or holders so long as said Bonds or the interest thereon remains unpaid.

SECTION 7. SECTION 10. It is hereby determined that the amount of tax credits to be allocated to the Project under Section 42 of the Code does not exceed the amount necessary for the financial feasibility of the Project and its viability as a qualified housing project throughout the credit period for the Project. **REQUEST MADE, PROPOSED USE, LOCATION:**

Petitioner, with consent from the owner, is requesting a rezoning from R2 to NBU of lots 51 and 52 in Oakland Addition Subdivision. The site is located at the southwest corner of Alabama and S. 16th Streets, more specifically 106 S. 16<sup>th</sup> Street, Lafayette, Fairfield 28 (NW) 23-4.

If the request is approved, petitioner plans to repurpose the existing historically significant building as a new location for Fuel Coffee Shop as well as residential apartments (one behind the coffee shop and the second above the commercial ground floor) at this location.

**ZONING HISTORY AND AREA ZONING PATTERNS:**

The earliest zoning maps for the Valley Center neighborhood shows residential zoning. The land in this request, along with the adjoining properties to the west and south are zoned R2. Properties to the north across Alabama Street are zoned General Business whereas, land to the east across S. 16<sup>th</sup> is zoned R2.

The subject property is in the *5Points* revitalization plan identified by the City as the convergence of several historic neighborhoods with high redevelopment potential. In 2018, the City released the final study with recommended growth opportunities in the area.

**AREA LAND USE PATTERNS:**

The site housed an engineering consultants' business (H. Stewart Kline & Associates Inc.) for decades. The Sanborn map from 1956 shows an office building at this location. Commercial uses are prominent north of Alabama, along South, 18th and Main Streets. Tyrie Mower Repair is to the south across the alley. Bar Barry Liquors is at the northeast corner of Alabama and S. 16<sup>th</sup> Street. A retail strip center (the former location of Kathie's Homemade Kandies) north of Alabama Street has Nana's Workshop, J&S Sports Cards, and 7 Sins Lafayette. Evergreen Wesleyan Church is farther to the south at Grove Street. Single and two-family homes are still dominant uses in the Valley Center neighborhood.

According to the Assessor's records, a 2,610-sq. ft. one-story addition was added to the original two-story residential structure in 1970. The residential portion of the structure was constructed in 1910 and is considered historically significant per the *5Points* document.

**TRAFFIC AND TRANSPORTATION:**

Both Alabama and 16<sup>th</sup> Streets are classified as urban local roads. A graveled parking lot on site has access from the alley. If approved, petitioner must comply with all the applicable requirements of the ordinance before acquiring a change of use permit from the city.

**ENVIRONMENTAL AND UTILITY CONSIDERATIONS:**

City sewer and water serve the site. No bufferyard is required between NBU and R2 zoning.

**STAFF COMMENTS:**

Petitioner plans to relocate Fuel Coffee Shop from its current location on Main Street to the site in this request. The previous business was considered legally nonconforming until it closed a few years ago. Currently, a purchase agreement contingent on rezoning of the property is in place.

Non-residential use of any property with residential zoning is severely limited. Additionally, no structural work could be done to this building if it is damaged. The *5Points* study has identified the building on site as a historically significant structure. Allowing the adaptive reuse of historic buildings aid in the preservation of local architecture valued by the community. Petitioner has confirmed that they are working with the City Engineer’s office to identify and address building compliance requirements.

While a coffee shop may generate more traffic (both pedestrian and vehicular) unlike the previous office use, popular public interaction spaces, close to residential neighborhoods are known to improve the quality of life in the neighborhood. Despite gradual commercialization of Main, South and 18<sup>th</sup> Streets, there are limited prepared food options nearby to serve the residential population. Approving this rezone for Fuel Coffee Shop may address the “food desert” concerns in the area. Staff can support this request because both historical data (Sanborn Map) and future projection (*5Points*) for the subject property indicates a commercial use for the site.

**STAFF RECOMMENDATION:**

The City shall utilize this information and the information required to be filed by the Applicant in the CF-1 Compliance with the Statement of Benefits form to verify that the Applicant has complied with the commitments contained in the Commitments at all times after the Commitment Date and during the duration of the tax abatement. The applicant further agrees to provide the City with such additional information requested by the City related to the information provided in the Annual Survey and the CF-1 form within a reasonable time following any such request.

Section 3. Termination.

A. Right to Terminate. The City, by and through the Council, after recommendation by the Commission, reserves the right to terminate the personal property tax abatement deduction if it determines that the Applicant has not made reasonable efforts to substantially comply with all of the Commitments and the Applicant’s failure to substantially comply with the Commitments was not due to factors beyond its control.

B. Factors Beyond Control. As used in this Agreement, factors beyond the control of the Applicant shall only include factors not reasonably foreseeable at the time of the designation application and submission of Statement of Benefits which are not caused by any act or omission of the Applicant and which materially and adversely affect the ability of the Applicant to substantially comply with the Agreement. C. Repayment Upon Termination: Pursuant to Resolution 2004-22 if the new manufacturing equipment is removed from the City of Lafayette before the expiration of the term of the abatement, and the City terminates the personal property tax abatement, the City may require the Applicant to repay all or a pro-rated portion of the personal property tax abatement savings received through the date of such termination.

D. Notice of Termination and Repayment. In the event that the City determines that the tax abatement deductions should be terminated or that all or a pro-rated portion of the tax abatement savings should be repaid, it will give the Applicant notice of such determination, including a written statement calculating the amount due from the Applicant, and will provide the Applicant with an opportunity to meet with the City's designated representatives to show cause why the abatement should not be terminated and/or the tax benefits repaid. Such notice shall state the names of the person with whom the Applicant may meet and will provide that the Applicant shall have ninety (90) days from the date of such notice to arrange such meeting and to provide its evidence concerning why the abatement termination and/or tax benefits repayment should not occur. If, after giving such notice and receiving such evidence, if any, the City determines that the abatement termination and/or tax benefits repayment action is proper, the Applicant shall be provided with written notice and a hearing before the Council before any final action shall be taken terminating the abatement and/or requiring repayment of tax benefits. If the Council adopts a Resolution terminating the tax abatement and/or requiring repayment of tax benefits, the Applicant shall be entitled to appeal that determination to a Tippecanoe County Superior or Circuit Court.

E. Time of Repayment. In the event that the City requires repayment or partial payment of the tax abatement benefits as provided hereunder, it shall provide Applicant with a written statement calculating the amount due ("Statement"), and the Applicant shall make such repayment to the City within ninety (90) days of the date of delivery of the Statement, unless such repayment has been stayed pending an appeal. If the Applicant does not make timely repayment, the City shall be entitled to all reasonable costs and attorneys fees incurred in the enforcement and collection of the tax abatement savings required to be repaid hereunder.

## PRINCIPLES

### FOR CONSIDERATION OF PROPERTY TAX ABATEMENT IN LAFAYETTE, INDIANA

These principles are used in determining the guidelines and considerations for each category of project, and will also be used in determining the length of an abatement within each category.

1. Firms receiving tax abatement are expected to give local construction firms and local suppliers of goods and services the opportunity to do business.
2. Existing industry will be considered for tax abatement on the same basis as firms being recruited to the community.
3. Preference will be given to firms that diversify and fill gaps in our local economy rather than those that compete for business in the local economy with existing firms.
4. Products that are sold outside our local community and bring value to the local economy will be given a high priority.
5. Abatement will be used to recruit and assist firms that create a technology based product or service or use advanced technology in manufacturing.
6. Location in the downtown, the urban enterprise zone, or declining area designated as an economic development area will be given a higher priority.
7. Projects that involve retail or are primarily office operations will be considered only in the locations described in #6 above unless the office operations are technology related.
8. The number of jobs created per dollar of investment will be an important consideration for the warehouse distribution and manufacturing areas.
9. The level of wages and benefits will be an important consideration for all applications.
10. Housing will be evaluated in terms of percentage of units available to lower income families, mix of income levels, distance from other projects serving a similar clientele, availability of services, potential displacement of existing housing, and compatibility of design.
11. Projects will not be considered that will require variances or special exceptions unless primary review indicates that no problems will be encountered.
12. Adverse environmental impacts will negatively affect the consideration of abatement.
13. Any need for additional public infrastructure or other additional public support in the project will be considered in determining the length of the abatement.
14. Major development projects will be individually evaluated.
15. The time period of depreciation of equipment will be considered in the length of abatement for equipment.
16. Economic Revitalization Areas (ERAs) designated by the Common Council for new manufacturing equipment will include a Memorandum of Understanding that will provide for the repayment to the City of all or a portion of the tax savings realized through the designation in event that the ERA is terminated because the new manufacturing equipment is removed from the City.

## PRINCIPLES

### FOR CONSIDERATION OF PROPERTY TAX ABATEMENT IN LAFAYETTE, INDIANA

These principles are used in determining the guidelines and considerations for each category of project, and will also be used in determining the length of an abatement within each category.

1. Firms receiving tax abatement are expected to give local construction firms and local suppliers of goods and services the opportunity to do business.
2. Existing industry will be considered for tax abatement on the same basis as firms being recruited to the community.
3. Preference will be given to firms that diversify and fill gaps in our local economy rather than those that compete for business in the local economy with existing firms.
4. Products that are sold outside our local community and bring value to the local economy will be given a high priority.
5. Abatement will be used to recruit and assist firms that create a technology based product or service or use advanced technology in manufacturing.
6. Location in the downtown, the urban enterprise zone, or declining area designated as an economic development area will be given a higher priority.
7. Projects that involve retail or are primarily office operations will be considered only in the locations described in #6 above unless the office operations are technology related.
8. The number of jobs created per dollar of investment will be an important consideration for the warehouse distribution and manufacturing areas.
9. The level of wages and benefits will be an important consideration for all applications.
10. Housing will be evaluated in terms of percentage of units available to lower income families, mix of income levels, distance from other projects serving a similar clientele, availability of services, potential displacement of existing housing, and compatibility of design.
11. Projects will not be considered that will require variances or special exceptions unless primary review indicates that no problems will be encountered.
12. Adverse environmental impacts will negatively affect the consideration of abatement.
13. Any need for additional public infrastructure or other additional public support in the project will be considered in determining the length of the abatement.
14. Major development projects will be individually evaluated.
15. The time period of depreciation of equipment will be considered in the length of abatement for equipment.
16. Economic Revitalization Areas (ERAs) designated by the Common Council for new manufacturing equipment will include a Memorandum of Understanding that will provide for the repayment to the City of all or a portion of the tax savings realized through the designation in event that the ERA is terminated because the new manufacturing equipment is removed from the City.

## **GUIDELINES**

### **FOR CONSIDERATION OF PROPERTY TAX ABATEMENT IN LAFAYETTE, INDIANA**
