### **City of Lafayette Offering Media Tour of Greenbush CSO Underground Storage Tank**

Lafayette, IN. – The City of Lafayette is holding a media event to highlight the progress on the Greenbush Combined Sewer Overflow underground storage tank. The magnitude of this environmental stewardship project has dictated that the floor of the tank be poured in segments. The press is invited to witness the third major concrete pour at the site. Representatives from Lafayette Renew and Bowen Engineering will be on hand to answer questions and to give an overview of the project which broke ground last September.

Mark your calendars for this unique opportunity at **650 Marion Street, Tuesday, May 8, 2018, 9:30a.m.** (*weather permitting*). Please wear appropriate safety gear to tour this active construction site.
