Climate Change Town Hall Meeting Planned

LAFAYETTE, INDIANA – January 22, 2020 – The City of Lafayette will be hosting a Climate Change Community Input Session on **Thursday, January 30, 2020**. The public is invited to attend this **6:00 p.m.** meeting which will be held in the City Council Chambers at Lafayette City Hall, 20 North 6th Street, Lafayette, Indiana.

Collaborating with Iris O'Donnell Bellisario from Purdue University's Department of Natural Resources and Environmental Science, Mayor Tony Roswarski encourages all Lafayette residents to join this important conversation regarding how climate change will impact Lafayette, and conversely, how Lafayette can impact climate change. Attendees will learn about the City of Lafayette's current efforts to preserve and protect the environment and hear from a guest speaker who will discuss ways to combat this global issue. The public will be asked to provide input and share comments. The goal of the meeting is to identify the main concerns of Lafayette citizens regarding climate change and to identify individuals who can help with adaptation planning and educational campaigns.

For more information, contact Iris O'Donnell Bellisario at iodonnell@purdue.edu or at (317) 760-2454.
