City of Lafayette Receives Three Awards for Loeb Stadium Project

LAFAYETTE, INDIANA – May 26, 2022 – The City of Lafayette is pleased to announce that Loeb Stadium has received three awards from state industry organizations. The awards were presented at events in Indianapolis last week attended by Mayor Tony Roswarski, City Engineering Jeromy Grenard and Parks Superintendent Claudine Laufman.

Top Notch Standards of Excellence Award

The Top Notch Standard of Excellence Award program was developed by Top Notch of Indiana for the purpose of recognizing achievement in Indiana's union construction industry and bringing together labor, management, ownership and leadership segments of the union industry. The City of Lafayette received a Top Notch Award for utilizing union contractors to build the \$22 million Loeb Stadium.

American Council of Engineering Companies (ACEC) Engineering Excellence Award

The ACEC awards are presented annually to recognize engineering achievements which demonstrate the highest degree of merit and ingenuity by Indiana consulting engineering firms. The awards are given for excellence in engineering for structures, roadways, pipes and sewers. There are three tiers of awards: Honor Awards (highest), Merit Awards (mid-tier), and State Finalist Awards (lower-tier). Loeb Stadium received a Merit Award for projects deserving special recognition for engineering excellence that meets the needs of the client and benefits public welfare.

American Public Works Association (APWA) Project of the Year Awards

The APWA awards are established to promote excellence in the management and administration of public works projects by recognizing the alliance between the managing agency, the consultant/architect/engineer, and the contractor who, by working together, complete public works projects. The award recognizes those projects that promote excellence in demonstrating creativity, ingenuity and efficiency in the delivery of public works projects that have a profound impact on the community. There are three Project of the Year awards in the following categories: structures, transportation, and environment. Loeb Stadium was Project of the Year in the structure category.

“The City of Lafayette is humbled by these three awards,” states Mayor Tony Roswarski. “We are so proud of the collaborative work that went into Loeb Stadium by the architects, engineers, union contractors, management team and vendors that makes Loeb Stadium a great community venue for everyone to enjoy.”
